

Institutional Distinctiveness **(2023-2024)**

Bhavan's Hazarimal Somani College of Arts, Science, and Commerce stands out for its unique Career Counseling Program for 12th standard students across Science, Humanities, and Social Sciences. Conducted by degree college faculty, this initiative bridges the gap between school and higher education, offering tailored guidance to help students make informed career decisions. The program leverages the expertise of the college's faculty, ensuring students receive accurate, practical insights into various career paths. Unlike other institutions relying on external agencies or generic seminars, Bhavan's personalized approach addresses individual aspirations. Interactive sessions encourage students to ask questions, explore career options, and understand the academic and skill requirements for their chosen fields. Distinctively, the program provides early exposure to higher education, demystifying college courses and fostering confidence in decision-making. Students receive resources like brochures, course details, and career maps, enabling further exploration. This proactive initiative enhances awareness, builds confidence, and often results in higher enrollment in the college's degree programs. Bhavan's commitment to student welfare, academic excellence, and personalized guidance distinguishes it from other institutions, preparing students for successful transitions to higher education and their future careers.

Glimpses of the Program:

Prof.(Dr.) Shantaj Dehbhatar
Principal (In-charge)
